#1 Northern White Cedar

LIGHT, NATURAL, RUSTIC

BBB ACCREDITED BUSINESS

Consider #1 Northern White Cedar for a wood fence with its own natural color, grain, and character.

APPEARANCE	Pale tan, cream, and light brown tones with natural knots; rough-cut pickets and backrails give each fence a rustic look.
DURABILITY	Wood has natural resistance to decay and insects. Actual performance depends on lumber quality and exposure.
MAINTENANCE	Weathers naturally toward gray. Staining can help preserve color and protect the wood surface.
THICKNESS	3/4-inch pickets. Best for staining: the light wood is a blank slate for the customer's stain choice, and rough-cut wood absorbs stain better.

EXPECTED SERVICE LIFE	**15–30 years**

General estimate, not a guarantee. Heartwood content, installation, moisture exposure, and maintenance matter.

THE RIGHT FENCE STARTS WITH THE RIGHT MATERIALS.

Compare our showroom samples in person. Natural wood color and grain vary from picket to picket. Fence longevity also depends on lumber grade, heartwood content, construction, exposure, and care.

80 YEARS OF EXPERIENCE · SERVICE · WORKMANSHIP · QUALITY MATERIALS
