Western Red Cedar

THE CLASSIC PREMIUM CEDAR

BBB ACCREDITED BUSINESS

Consider Western Red Cedar for a wood fence with its own natural color, grain, and character.

APPEARANCE	Warm reddish-brown, honey, and amber tones. Classic cedar color with attractive grain; appearance varies by grade and picket.
DURABILITY	Wood has natural resistance to decay and insect damage.
MAINTENANCE	Naturally weathers toward silver-gray. Stain or sealer can help retain its original color.
THICKNESS	5/8-inch pickets. Thicker pickets generally last longer and are less likely to warp, split, or rot.

EXPECTED SERVICE LIFE	**15–30 years**

Actual service life varies with lumber grade, heartwood content, installation, moisture exposure, and maintenance.

THE RIGHT FENCE STARTS WITH THE RIGHT MATERIALS.

Compare our showroom samples in person. Natural wood color and grain vary from picket to picket. Fence longevity also depends on lumber grade, heartwood content, construction, exposure, and care.

80 YEARS OF EXPERIENCE · SERVICE · WORKMANSHIP · QUALITY MATERIALS
